AI Residency

PROGRAM BROCHURE

An invite-only residency for
founders, operators and business leaders.

20 BUILDERS x 7 DAYS x 1 RESIDENCY

Why AI

and how does it affect the way you live?

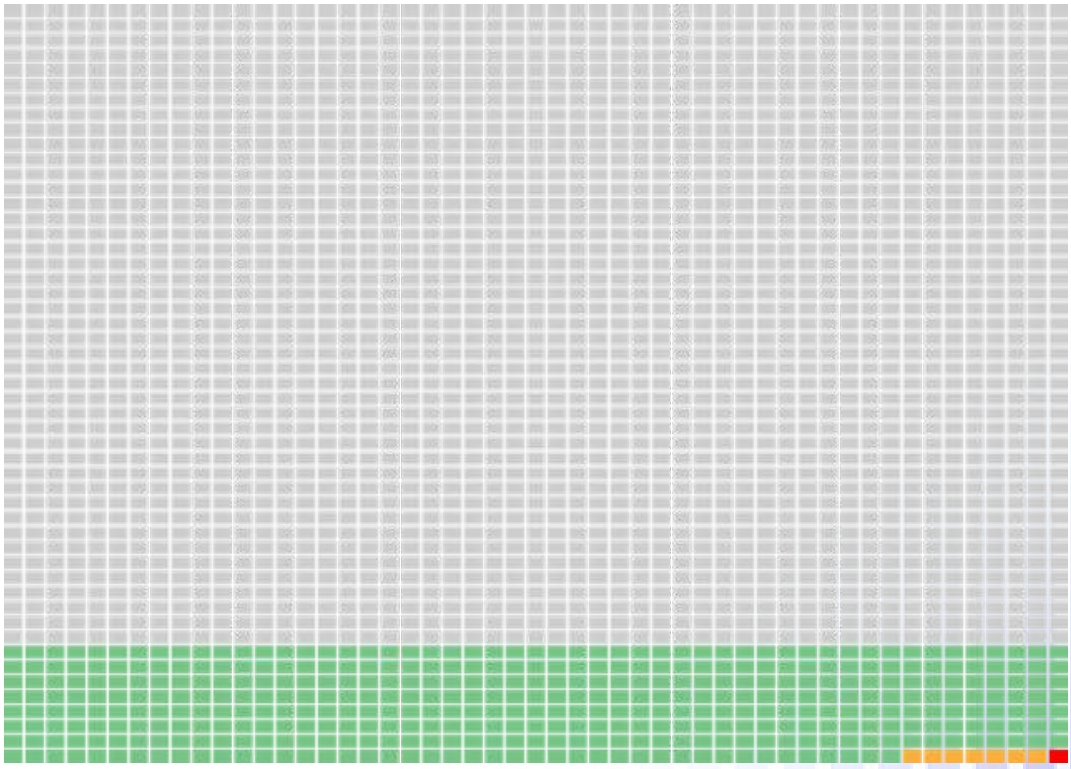

If you haven't been living under a rock, you've used AI.
You've felt the shift.
The biggest one since the internet in 2005. And the businesses that didn't adapt back then don't exist today.

And the way YOU work? unrecognisable.
What took a team now takes a builder. What took 6 months now takes 6 days. What took $200K now takes $2,000.

but you're not too late to start.

Each dot is ~3.2 million people

2,500 dots = 8.1 billion humans. Color = most advanced AI interaction, Feb 2026.

Never used AI ~6.8B (84%)
Free chatbot user ~1.3B (16%)
Pays for AI ~15-25M (~0.3%)
Builders ~2-5M (~0.04%)

What has shifted

THE FOUNDER

OLD WAY	WITH AI
$500K seed	One laptop.
8 engineers	One weekend
6 months to MVP.	Live by Monday

THE MARKETER

OLD WAY	WITH AI
Brief an agency.	Prompt a model.
2 weeks for 3 ads.	Ship 30 ad variants by Tuesday.
Pray it converts.	Test 30 versions before lunch.

THE OPERATOR

OLD WAY	WITH AI
50 humans chasing tasks.	5 humans + 50 agents
Spreadsheets and Slack.	Workflows that run while you sleep.
Burnout by Q3.	Built to last.

THE PROFESSIONAL

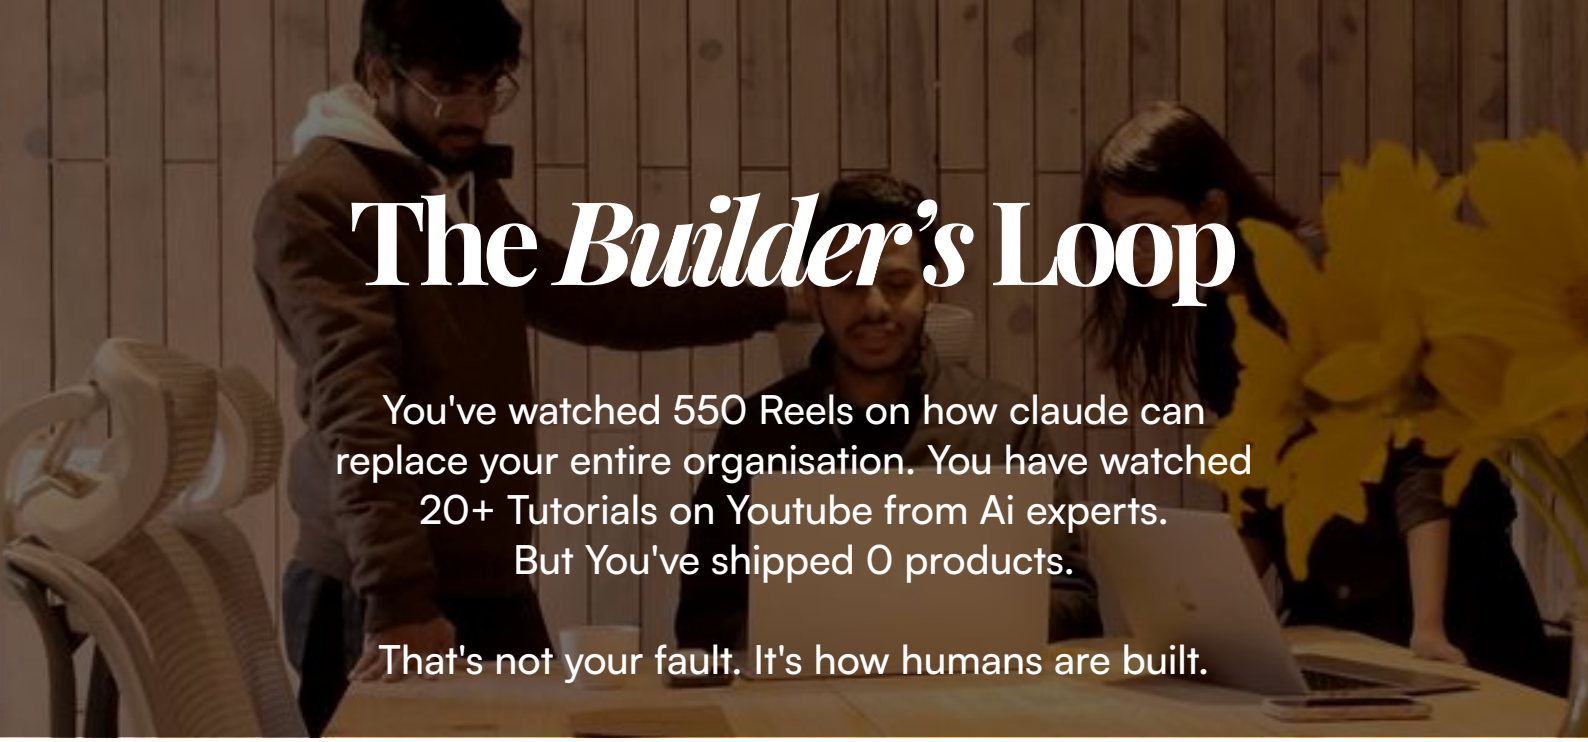

OLD WAY	WITH AI
Compete on hours.	Compete on leverage.
Outwork your peers.	Outproduce teams of 10.
Get a 12% raise.	Get poached.

THIS PROGRAM IS DESIGNED FOR

EXISTING BUSINESS OWNERS
Adapting AI into a business you already run/are a part of.

NEW BUILDERS
Starting from zero and want to become AI native from day one

The *Builder's* Loop

You've watched 550 Reels on how claude can replace your entire organisation. You have watched 20+ Tutorials on Youtube from Ai experts.
But You've shipped 0 products.

That's not your fault. It's how humans are built.

Here's how the Forge is designed to enable you to do more than you consume.

01 LEARN

New concept - taught through a masterclass, activity or workshop. Real tools.
Taught by operators who use them daily.

02 PRACTICE

Pod warm-up. Build the thing for a famous brand.
Teams of 4. Low stakes. Fast iteration. No ego.

03 BUILD

Solo. On YOUR business. With YOUR roadblocks.
Mentor at your shoulder. Just you and the build.

04 SHIP

Night build. Push past polish.
Don't sleep until it runs.

You don't leave with bookmarks.
You leave with real builds already vetted by like minded builders.

→ **Learning the fundamentals so your foundation is strong**
→ **Industry problem mapping. So we know exactly what you're solving.**

Offline *Sessions*

PILLAR 01 | DAYS 2-3

Product. The Build.

WHY THIS PILLAR

A SaaS prototype used to take 6 months, $250K and a dev team. Now it takes you, a vibe coding subscription and one weekend.

THINGS YOU'LL LEARN

Product Thinking & Technical Foundations
Turn a problem into a working idea. Scope a build, alone.

Advanced Vibecoding
Full-stack vibe coding - auth, database, real-time, deployment.

Making Products Intelligent with AI
APIs Integrate Claude, OpenAI, and vector search into your build.

Database, AI Features, and Product Analytics Schema design
Real-time data. Usage tracking from day one.

Shipping Safe - Security Essentials
Auth, RLS, env vars. The 30-minute production checklist.

Payments, Polish, and Launch
Payment integration. Pricing pages. The last 10% that actually ships.

TOOLS

Supabase | Claude Code | Vercel | GitHub

WHAT IT COULD BE

01 A team management system replacing 3 SaaS subscriptions.

02 A client dashboard for your marketing agency's reporting.

03 An LMS for your students or community.

04 A CRM for your D2C business.

05 An internal tool that kills your spreadsheet stack.

06 Anything that saves your business time, energy, or money.

PILLAR 02 | DAYS 4-6

Operations. The System

WHY THIS PILLAR

A 50-person ops team used to be the moat. Now it's your biggest liability. You'll learn to map workflows and processes to make a supercharged AI Ops team.

THINGS YOU'LL LEARN

Automation Thinking with n8n
Map workflows eating time from your business. Wire them up to run without you.

Building Real AI Agents
Tools, Memory, Routing Give agents tools to call, memory to recall, and decisions to make.

Giving Your Agent Knowledge - RAG
Connect agents to your data, documents, and business context.

Connecting Agents with MCP
The protocol that lets agents talk to other systems and to each other.

Workflow Design for Full Business Processes
Map complete business workflows end to end. Design handoffs and fallbacks.

Documentation & Ownership
Hand systems off to teammates - or to another agent. Build to last.

TOOLS

Claude n8n MCP

WHAT IT COULD BE

01 A lead-nurture system following up every inbound, 24/7.

02 A content-to-CRM pipeline turning DMs into qualified leads.

03 An invoice and collections agent for your D2C business.

04 A customer support agent answering 80% of tickets without a human.

05 Anything that runs your business without you sitting at a desk.

Taught by *Builders.* Not *Professors.*

Our *Residencies*

Thoughtfully chosen spaces. Built for one thing - building.

20 builders. One roof. 7 days.

But you could just, not *apply*

You could just do a course.
You could just join a hackathon.
You could just go to a conference.
You could just watch youtube.

But understand what each one actually gives you

	FORGE	ONLINE COURSE	HACKATHON	CONFERENCE
FORMAT	7-day residential	Self-paced video	48-hour sprint	2 days, talks
COHORT	20, hand-picked	Unlimited	200+, random teams	1000+
SELECTION	Application + interview	Credit card	Open registration	Credit card
YOU LEAVE WITH	3 builds, shipped	A certificate	Half-built prototype	Notes and swag
MENTOR ACCESS	Daily, at your shoulder	Discord, maybe	Floor walkers	A Q&A line
COMMUNITY	Curated, for life	Open Discord	Ends Sunday night	LinkedIn flood

You can't ship a real business from a **Zoom room.**
You can't build a future in a **48-hour sprint.**
You can't build a network at **a badge swap.**

The Forge is the only one of these where you walk out with the thing you came to build.

The Questions we get *asked*

Q. Do I need to know how to code?

No. We use Claude, Lovable, Cursor, n8n - tools designed for non-engineers. You need willingness. We give you the rest.

Q. I have a full-time job. Can I attend?

You'll need to be fully present for 7 days.
Take leave. You'll come back with a side project that can replace your job.

Q. What if I've never used AI tools before?

The pre-arrival sessions get you ready. Day 1 is for people who've never used AI. Day 9 is for people who've built with it.

Q. Why pay for this when free AI content is everywhere?

Because you've watched 47 tutorials and shipped 0 products.
Free content gives you information. Forge gives you output.

Q. How selective is it?

20-30 invites per edition Thousands apply. We interview every shortlisted applicant. The bar is fit, not credentials.

Q. What if I can't make this edition?

We defer you to the next one.
Your deposit holds for one cycle. You keep your seat.
